

New Innovation

of Clear Coat Finishing

SUNFOAM

- Reduces the compound polishing time
- Provide a better finish without deep scratch
- Provide even surface pressure
- Good for contour or curved sanding

SUNFOAM

Sunfoam is made with fabric and foam structure to provide outstanding finish and even surface pressure. Special abrasives coating on the fabric allows sanding and polishing at same time to finish your work much faster. It is great for curved and contour surfaces and works well on wet sanding.

Technical Specifications

Grain	Aluminum Oxide
Backing	Fabric on Foam
Bond	Resin over Resin
Coating	Special coating on the fabric
Grit Range	240 - 5000

Application

Automotive

Aerospace

Marine

Wood

Metal

Main Applications and Recommended Steps

Clear Coat : Removing orange peel or paint runs (Wet sanding)

6" Film disc

#1500 grit

6" Sunfoam

#3000 grit

Compound

Polish

#3000 sunfoam drastically reduces the compound time

#1500 grit

#3000 grit

#5000 grit

Polish

#5000 grit sunfoam may eliminate the compound process for small areas

- Suggested to use with Soft Backing Pad (08500) and interface pad (09600)

Sunfoam

Velcro Disc
