Grit						△	△	△	△													
	◀ Rough Grinding															Finishing (Polishing) ▶						

- Introductory Remarks ● : Standard Grit △ : Non Standard Grit

ADVANTAGE

- Better finishing
- Long last
- More useful to heat sensitive work pieces
- Ceramic grains have more durability.

OPERATION / APPLICATION

- Deburring of steel and stainless steel
- Back stand
- Most useful for contour sanding

WORKPIECES

- Nickel alloy
- Titanium
- Stainless steel(cutlery) & Carbon Steel

AVAILABLE SANDER / GRINDER

- Narrow Belt sander
- Back stand sander
