

HIGH-PERFORMANCE PAINT CUP SYSTEM

Reliable and easy to use professional Paint Cup compatible with various spray guns

Reliable Locking System

The durable retaining ring is engineered to provide a strong and reliable connection between the liner and hard cup

Easy to Collapse Liner

The flexible liner collapses well as material is sprayed, allowing paint to flow consistently from virtually any spraying angle

Strong Adapter Connection

The reinforced fluid outlet is designed to resist cracking and damage

Clear Hard Cup

The premium transparent hard cup provides excellent visibility of paint levels

Color-Coded Filter Lids

Blue lid for waterborne paints and clear lid for solven-based paints
